Promotion of research

- The basic objective of ACBCS to make the students thinker and help students to explore themselves at global level by solving various problems at local/ national/international level. India with number of young & innovative minds is looking to be a global leader in research and innovation. We at ACBCS are committed to give our contribution in this national mission through EUREKA National level competition in collaboration with ESDS Software Solution Ltd. Till last year we conduct this activity at state level, this year we plane to conduct at National level as huge response we get every year.
- This competition is challenging students to dare to think different. The objectives of this competition were:
 - To bring out creative Ideas from students.
 - To inculcate research culture among students.
 - To encourage original and novel thinking.
 - To provide an opportunity for expression of ingenious thoughts.
 - To explore the active student centered paradigm of education.
- Till date we have received 100 registrations for the competition.
