Today the educational world is adopting research as a core part of its curriculum. Research would be something that would enhance the conceptual knowledge of a faculty as well as a student by giving them a practical connect that directly contributes towards the growth of the society. So, bringing research into teaching-learning methods has become the need of an hour. Having an in-depth analysis of the things can not only make learning fruitful but also enrich the knowledge in one's area of interest. Research is something that needs to be searched again and again. It's a never ending process, as knowledge has no limit.

Ashoka Center for Business and Computer Studies**Event Report****Activity Title: Student Research Project Scheme Competition****Name of the QAG Cell: Research Cell****Activity Date and Time: 25/05/2023, 11:00AM--2:00PM****Resource Person/Judge : Dr. Pooja Gholap, Dr. Sonali Jadhav****No. of Attendees: 24****Introduction (of Activity):**

Today the educational world is adopting research as a core part of its curriculum. Research would be something that would enhance the conceptual knowledge of a faculty as well as a student by giving them a practical connect that directly contributes towards the growth of the society. So, bringing research into teaching-learning methods has become the need of an hour. Having an in-depth analysis of the things can not only make learning fruitful but also enrich the knowledge in one's area of interest. Research is something that needs to be searched again and again. It's a never ending process, as knowledge has no limit.

Objectives:

1. To create awareness of research among the students
2. To make students well acquainted with importance and opportunities involved in the research Work.
3. To inculcate the research culture in institutes and among the students
4. Students participation at Avishkar Competition of SPPU

Objective attainment:
